

AN EMERGING MID TIER GOLD PRODUCER IN MEXICO

Company Presentation | March 2025

TSX.V: GGA OTC: GGAZF

Disclaimer

Forward-Looking Statements

This presentation contains forward-looking information about Goldgroup within the meaning of the Securities Act (British Columbia). Forward-looking statements relate to future events or future performance and reflect Goldgroup's expectations regarding the future growth, results of operations, business prospects and opportunities of Goldgroup. These statements reflect Goldgroup's current internal projections, expectations or beliefs and are based on information currently available to Goldgroup. In some cases forward-looking information can be identified by terminology such as "may", "will", "should", "expect", "intend", "plan", "anticipate", "believe", "estimate", "projects", "potential", "scheduled", "forecast", "budget" or the negative of those terms or other comparable terminology. Many of these assumptions are based on factors and events that are not within the control of Goldgroup and there is no assurance they will prove to be correct. Forward-looking statements are subject to a variety of known and unknown risks, uncertainties and other factors that could cause actual events or results to materially differ from those reflected in the forward-looking statements, and are developed based on assumptions about such risks, uncertainties and other factors including, without limitation: fluctuations in precious and base metal prices; inherent hazards and risks associated with mining operations; inherent uncertainties associated with mineral exploration and development activities; uncertainties inherent in the estimation of mineral reserves and/or resources and precious metal recoveries; uncertainties related to actual capital costs, operating costs and expenditures, production schedules and economic returns from Goldgroup's projects; uncertainties related to current global financial conditions; uncertainties related to the availability of future financing necessary to undertake exploration, development, mining and processing activities on Goldgroup's properties; risks related to the integration of businesses and assets acquired by Goldgroup; uncertainties related to the competitiveness of the mining industry; risks associated with Goldgroup being subject to government regulation, including changes in law and regulation and risks associated with Goldgroup's need for governmental licenses and permits; risks associated with Goldgroup being subject to extensive environmental laws and regulations, including a change in regulation; risks that Goldgroup's title to its property could be challenged; political and country risk; risk of water shortages and risks associated with competition for water; Goldgroup's need to attract and retain qualified personnel; increases in off-site transportation and concentrate processing costs; risks related to the need for reclamation activities on Goldgroup's properties, including the nature of reclamation required and uncertainty of costs estimates related thereto; risks associated with potential conflicts of interest; risks associated with potential labour disputes; and risks associated with potential blockades of mining operations as well as "Risks and Uncertainties" included in the Annual Information Form and MD&A for Goldgroup available at www.sedarplus.com. Forward-looking information is not a guarantee of future performance and actual results and future events could differ materially from those discussed in the forward-looking information. All of the forward-looking information contained in this presentation is qualified by these cautionary statements. Although Goldgroup believes that the forward-looking information contained in this presentation is based on reasonable assumptions, readers cannot be assured that actual results will be consistent with such statements. Accordingly, readers are cautioned against placing undue reliance on forward-looking information. Goldgroup expressly disclaims any intention or obligation to update or revise any forward-looking information contained in this presentation, whether as a result of new information, events or otherwise, except in accordance with applicable securities laws. The information contained herein does not constitute an offer of securities for sale in the United States and securities may not be offered or sold in the United States absent registration or exemption from registration.

Qualified Persons

The person with overall responsibility for approving Goldgroup's mining technical disclosure is Craig Gibson, Ph.D., CPG, the Company's in-house qualified person under NI 43-101.

The Goldgroup Story

WE ARE MEXICO EXPERTS

- We know Mexico - and our experienced management team and our knowledge of the Mexican mining landscape give us a competitive advantage – we recognize opportunities and value upside i.e. Tahuehueto, Campo Morado

FOCUSED ON GOLD PRODUCTION AND EXPLORATION

- 100% ownership of the Cerro Prieto heap leach gold mine in Sonora, Mexico

CURRENT GOLD PRODUCTION

- Producing approx. 11,500 ounces of gold annually at Cerro Prieto

GROWTH PLAN: DOUBLING GOLD OUTPUT

- New recovery strategy designed to more than double gold production to ~24,000 ounces/year
- Expanding growth through strategic acquisition
- Re-leach existing leach pads containing an estimated 133,000 oz Au adding ~6,000 Au Oz/yr over 5.5 years

PINOS PROJECT: NEW PROJECT ACQUISITION – *subject to approval*

- Fully permitted, PEA-level gold project

ATTRACTIVE VALUATION

- A unique opportunity to participate in a producing gold mining company with high value expansion projects and external acquisition initiatives with disciplined criteria

Asset Overview

CERRO PRIETO GOLD MINE – Flagship

LOCATION	Sonora, Mexico
OVERVIEW	Producing open pit heap leach mine producing approx. 11,500 ounces of gold / year
Planned Production Increase	To + 24,000 oz gold / year from mining adding + 6,000 oz Au /yr from re-leaching processing 4,000 t/day

PINOS PROJECT – *subject to TSX approval*

LOCATION	Central Mexico, Zacatecas
OVERVIEW	Fully permitted, PEA-level gold project

Cerro Prieto Mine

Cerro Prieto Mine: Overview

- 100% ownership of the 4,335 Ha Cerro Prieto mine located in the Cucurpe Mining District, Sonora, Mexico
- Situated 52 km from the regional center of Magdalena de Kino and 150 km northeast of the city of Hermosillo
- Cerro Prieto has been in production since 2013 and has produced over 120,077 ounces of gold to Mar 31, 2024
- Current annual production is approximately 11,500 ounces of gold

GROWTH PLAN – DOUBLING GOLD PRODUCTION

- The company has implemented a plan to increase **annual gold production at Cerro Prieto to over 30,000 ounces**, while pursuing growth through strategic acquisitions of undervalued mining assets in a low-cost environment.

Growth Plan: Doubling Gold Output

1

INITIATIVE 1

Late Q1 2025

- Double current throughput to 4,500+ tpd
- Achieve operating profit of US \$12 Million over 2025 and beyond with continued exploration success

2

INITIATIVE 2

- Re-leach existing leach pads containing an estimated 128,000 oz Au
- 8035 Au oz recovered annually
- 45,001 ounces of recoverable gold @ 35% recovery
- @ \$2,500/au oz generates estimated revenue of \$112 million &
- operating profit of \$57.6 Million over 5.6 years @ 4,000 t/d processing rate.

3

INITIATIVE 3

- Explore advanced and new zones to extend mine life

Path to Success: Production increase, Re-Leach, Explore & Acquire

Path to Success

INITIATIVE 1: DOUBLE PRODUCTION

Cerro Prieto one year mine plan 2025 – 2026 End Q1.
Esperanza & Centro Zones at 4,500 tpd

- Au @ \$2,700/oz, Ag @ \$30/oz
- \$52.4M – Estimated Total Revenue for 1 Yr
- 1 Yr Operating Profit Estimated at \$10.9M
- 1.3M t to leach pads @ 0.70g/t Au – 1 Yr LOM.
- 29,800 Recovered Gold Ounces @ 67% recovery

Path to Success

INITIATIVE 2: RE-LEACHING LEACH PADS – 10.3 M TONNES – 133,233 OZ AU

- Estimate 45,002 ounces of recoverable gold @ 35% recovery
- Gold @ \$2,500/oz silver @ \$30/oz gives,
- Estimated revenue of \$112.5 M
- Operating profit estimated at \$57.6 M for 5.6-year life of project at 4,000 tonnes per day.
- Increases annual mine operating profit by \$10.5 M for 5.5 years.
- \$21.4 million potential annual operating profit from mining and re-leaching
- Estimate \$6 M capital cost for re-leaching project. Payback over five months.

Path to Success

INITIATIVE 3A: EXPLORE ADVANCED ZONES

Nueva Esperanza Zone: Partially drilled, 17 drill holes with excellent results

- Explore and develop new resources to extend the mine's lifespan
- Nueva Esperanza Zone & Reyna Zones expected to extend mine life additional 2- 3+ years past Esperanza 1yr
- Resource expansion drilling planned for late March

Reyna Zone: Trenched with excellent results

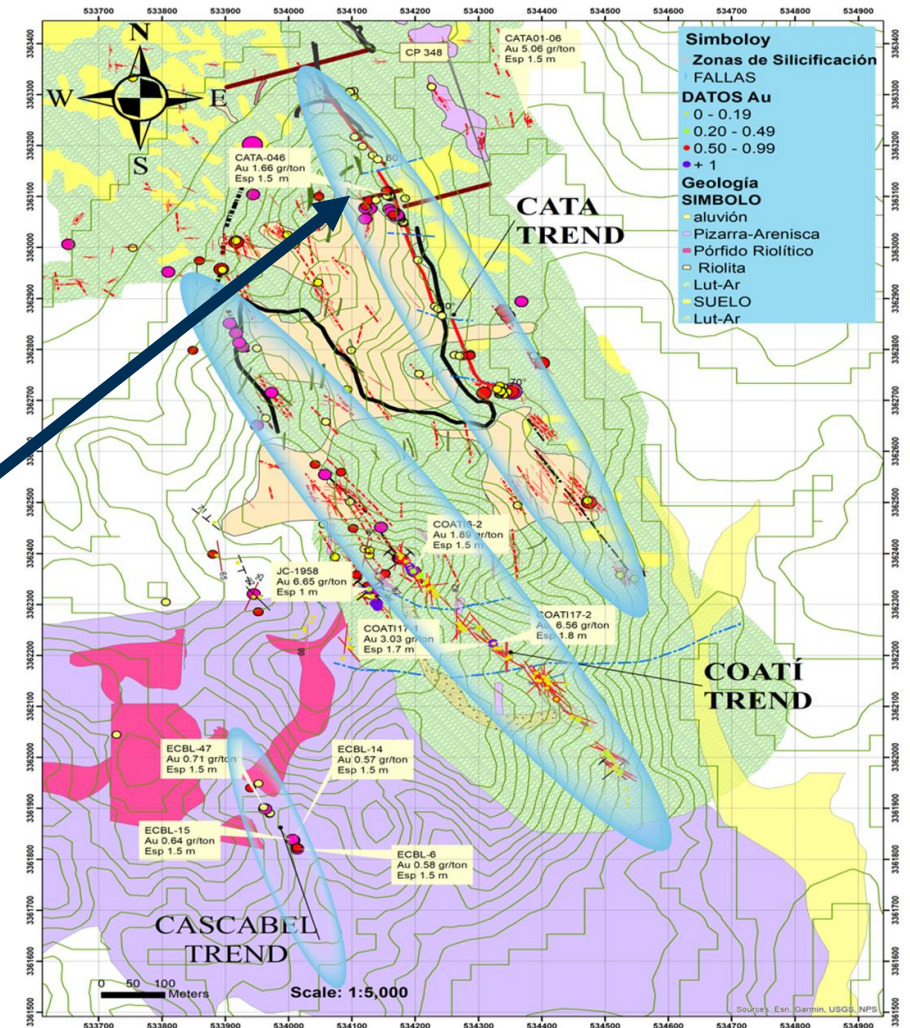

**Undrilled Exploration Zone – Highly Prospective Reyna Zone
Extension of Nueva Esperanza**

Path to Success

INITIATIVE 3B: EXPLORE NEWLY DISCOVERED ZONES

- ~1.2km on trend SSE from Centro Pit
- Southern extension of the main Cerro Prieto shear zone
- Excellent preliminary surface sample results; Potential to add additional years to mine life
- Ongoing trenching, geophysics and drilling
- Recent trenching results include 13.2 m at 0.42 g/t Au, 4.95 m at 0.43 g/t Au

Pinos Project: Fully permitted PEA level project

- Located in the highly productive Zacatecas gold & silver mining belt, the 2nd largest mining state in Mexico.
- 29 concessions over 3,816 hectares, 90 km WNW of San Luis Potosi, via paved road to the site entrance. Power and water supply available at site, 52 shafts in the whole district with 40km of underground workings.
- Low-sulphidation epithermal Au and Ag vein systems within multiple primary structures related to major regional shears.
- Historical production records indicate average historical grades of 30-50 g/t Au from 33 shafts located throughout district. Vein widths vary from less than 1m to over 8m (avg. 1.5m).
- Positive 2018 PEA⁽¹⁾ based on initial resources for re-start operation. Subsequent advances to resources, engineering, and cost estimates. MI&I Resources of 86,000 oz Au and 1.3Moz Ag (2.2 AuEq cut-off, \$1250/oz Au) in a re-opened underground narrow-vein operation
- Metallurgy Recoveries demonstrate +90% Au recovery via dynamic cyanide leaching⁽¹⁾ with Merrill-Crowe precipitation.

(1) Pinos Gold Project Preliminary Economic Assessment , September 2018.
(\$1250/oz Au; \$17/oz Ag)

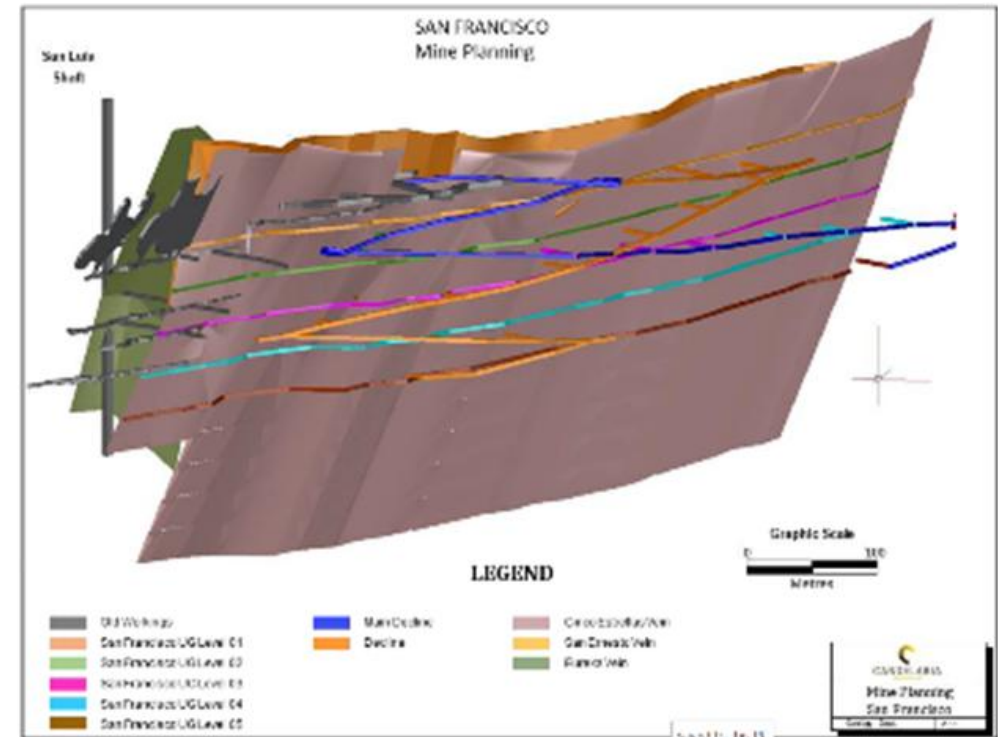

Pinos Mine Re-Start – PEA Highlights (2018)

Operating Metrics

- Underground cut-and-fill stoping with backfill.
- Platform of 13koz annual to build upon (1)
- Plant design 400 tpd. Comminution, agitated leach, counter-current decantation, and Merrill-Crowe Au-Ag precipitation
- Initial 7-year LOM – average feed grade 4.7 g/t AuEq^(1,2)
- Phase 1 is the re-start: Initially at 200tpd for first 6-12 months, ramping up to 400tpd.
- Pinos Phase 2, subject to exploration results, will aim to expand mill throughput (target 500 tpd) and/or extend mine life.

Financial Metrics

- Low pre-production capex (USD 16.5m) for re-start (plant equipment already acquired).
- Total operating cost approx. USD 80/t, AISC below US\$ 900/oz AuEq^(1,2,3).
- Free cashflow US\$ 4 – 5.5m p.a.⁽¹⁾ @ \$1250/oz gold price.

- (1) Pinos Gold Project Preliminary Economic Assessment, September 2018. (\$1250/oz Au; \$17/oz Ag)
- (2) Gold equivalent based on 74:1 silver:gold ratio
- (3) All-in sustaining costs (AISC) include mining, processing, direct overhead, on-site exploration, reclamation, mill expansion to 400 tpd, refining costs, and government and third-party royalties. AISC excludes Corporate G&A.

Share Structure

Large Control Position of 55.29 million share owned by Calu Opportunity Fund LLP ~ 35.5% of outstanding shares.

Management & Directors

Ralph Shearing
CEO

Professional Geologist (APEGA) with extensive experience in exploration and mining. Since 1987, he has held senior executive roles, primarily as CEO/President of junior mining companies, including Luca Mining Corp., which he founded in 1986 and led through the exploration and initial development of the Tahuehueto mine in Durango, Mexico.

Anthony Balic
CFO & Director

Mr. Balic was previously the Director of Finance of Goldgroup, where he managed the entire finance and accounting function of the Company. Prior to this position, he was a Senior Manager at Deloitte LLP in Vancouver, where he specialized in assurance and advisory for mining companies.

Corry Silbernagel, P.Eng, MBA
Director

Vancouver-based finance specialist with extensive experience in mining and energy. Previous CFO of Cabo Drilling Corp. and previously worked as a corporate advisor in strategy, finance, and business development. As a professional engineer, he has managed large-scale projects over \$100 million for companies like Suncor Energy and TransAlta.

Blair Jordan
Director

Managing Partner of Restructure Advisors, specializing in restructuring and turnaround strategies across multiple industries. He was CFO of HeyBryan Media Inc. and held senior roles at Ascent Industries Corp., including CFO and Interim CEO. Previously, he was Managing Director of Investment Banking at Echelon Wealth Partners

Roberto Guzman
Director

Master's degree in Finance from the Universidad Tecnologica de Mexico in 1989 and has more than 25 years of experience in the Financial Sector, primarily in Mexico. Initially working as finance manager for several Mexican publicly traded companies as well as other private Mexican financial companies.

Upcoming Catalysts

Mine Expansion Drilling: Advancing Nueva Esperanza & Reyna zones to extend mine life (**March 2025**)

Gold Production Growth: Completion of crushing expansion at Cerro Prieto Mine, doubling output (**Q2 2025**)

Exploration Expansion: Drilling, trenching and geophysics at new high-potential zones: Cata and Coati (**ongoing**)

New Acquisition: Advancing the Pinos Project, a fully permitted PEA-level Au-Ag project in Mexico

Potential \$60M settlement award: Denial of justice claim filed against the Mexican government with management estimate of a potential award in excess of \$60M based on independent valuation of subject property.

The Goldgroup Opportunity

1

Currently producing 11,500 ounces of gold annually at the 100% owned flagship Cerro Prieto heap leach gold mine

2

Aiming to increase annual production to ~30,000+ gold ounces annually by implementing 3 main initiatives:

- Doubling current throughput to 4,500+ tpd increasing annual profit
- Re leaching leach pads for 9,000 gold ounces annually and;
- Planned exploration on new advanced zones which could extend LOM by 3-5 years
- Excellent exploration potential could further extend mine life.

3

Led by a team of **seasoned professionals** familiar with operating in Mexico

4

New Acquisition: Pinos Project - a fully permitted PEA level gold project

5

Leverage management's extensive Mexican operating experience to **pursue additional acquisitions**

Debt Summary

Corporate Debt – December 2024 – Total USD 3.9 Million

- \$2.80 M - Royalties
- \$0.77 M - Management Compensation several years
- \$0.13 M - Legal
- \$0.18 M – Auditor
- \$0.02 M – Misc. Marketing, Insurance, regulatory fees

Project Debt – December 2024 – Total USD \$7.08 million

- \$2.29 M - Mining Contractors
- \$0.8M – Exploration Drilling contractor
- \$0.3 M - Diesel supplier
- \$1.11 M – Misc. – 43 suppliers
- \$2.58 M – Accrued liabilities and mining taxes

NAFTA CASE

The Company has filed a Request for Arbitration with the International Centre for Settlement of Investment Disputes (“ICSID”) against the United Mexican States. The treatment and inaction by the Mexican courts have resulted in a judicial expropriation of the Company’s investment in DynaMexico and a denial of justice in breach of Mexico’s obligations under the North American Trade Agreement (“NAFTA”). The case is being pursued on a contingency basis and the potential award is in excess of \$60M based on an independent valuation of the lost investment. The tribunal hearing is scheduled for September 2025, and it is anticipated there will be a judgement rendered in Q1 2026.
